

Fazal Karim

Senior Full Stack Engineer — Angular, React, Node.js, Ruby on Rails

Lahore, Pakistan · +92 324 496 2952 · fazalkarim.dev@gmail.com · [LinkedIn](#) · [Portfolio](#)

SUMMARY

Senior Full Stack Engineer with 7+ years of experience designing, building, and scaling web and mobile applications for startups and Fortune 500 companies. Specialized in Angular, React, and Node.js, with a proven record of leading engineering efforts, collaborating across cross-functional teams, and shipping production-ready solutions with a strong focus on performance and accessibility.

SKILLS

Frontend: Angular, React, Vue.js, Next.js, React Native, Redux, Tailwind CSS, Material UI, TypeScript, JavaScript (ES6+), HTML5, CSS3

Backend: Ruby on Rails, Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, Redis, Firebase, Supabase, Push Notifications

AI-DevOp Tools: Git, Docker, AWS, CI/CD, Bitbucket, Vercel, Heroku, Jira, Trello, Slack, Notion, Claude, Cursor

Testing: Jest, React Testing Library, Enzyme, Cypress, Manual QA

EXPERIENCE

Senior Software Engineer (Freelance)

Jun 2022 – Present

Independent, Remote

- Deliver full-stack, cross-platform responsive web and mobile solutions across a range of client engagements.
- Lead and independently build projects end-to-end, from requirement gathering through deployment and scaling.
- Apply AI-driven development workflows to accelerate delivery while maintaining production-quality standards.
- Build scalable SaaS products, management systems, and professional portfolio platforms.

Senior Software Engineer

Aug 2021 – May 2022

Nisum, Remote

- Developed enterprise-grade applications using React, Angular, Node.js, TypeScript, and GraphQL.
- Built responsive, cross-browser interfaces to WCAG accessibility standards, improving overall usability.
- Mentored junior developers and enforced clean-code practices through code reviews and pair programming.
- Partnered with globally distributed teams to roll out CI/CD pipelines and author integration tests with Jest.

Software Engineer → Senior Software Engineer

Jan 2019 – Aug 2021

Devsinc, Lahore

- Led development of cross-platform applications using Angular, React, React Native, Ruby on Rails, and Node.js.
- Delivered proofs of concept that evolved into production systems, strengthening the delivery pipeline.
- Integrated third-party services including Stripe, Google Places, and Firebase across web and mobile projects.
- Engineered modular, reusable UI systems following DRY and SOLID principles to minimize refactoring.
- Drove Agile ceremonies — sprint planning, retrospectives, backlog grooming, and QA coordination.

Software Engineer

May 2018 – Jan 2019

Codexia Technologies, Lahore

- Developed hybrid mobile apps with Ionic and Angular 6, delivering consistent UX across platforms.
- Built Firebase-powered features (authentication, real-time data) for products including QuitFix, Kodeec, and Cambuz.
- Performed manual QA across Android and iOS, reducing production defects.

Front End Developer

Sep 2017 – Jan 2018

Narsun Studios, Lahore

- Engineered UI for large-scale live stadium experiences (Xcite Interactive) using Angular 4, Firebase, and PubNub.
- Enabled real-time user engagement through seamless frontend-backend synchronization with Express.js.

Lecturer, Computer Science

Aug 2015 – Jan 2017

Old Alpha Academy, Lahore

- Taught foundational computer science to high-school students, strengthening communication and instructional skills.

PROJECTS

- **Roxova** — Media content licensing platform for managing owned content and requesting licenses for third-party content, with integrated legal handling and a pre-licensed content library. (*Next.js, React, Node.js*)
- **Prologis** — Real estate management system supporting sale, rental, and lease operations, logistics, measurements, and legal compliance, with an accessibility-first UI. (*React, Node.js, GraphQL*)
- **Kodeec** — Hybrid real estate listing app for Gulf markets enabling buyer-agent contact, listing interest, and request-based notifications. (*Ionic, Angular, Firebase Realtime DB*)
- **AnaNinja** — Retail management platform covering inventory, warehousing, delivery, payments, returns, and wishlists. (*Vue.js, React Admin, Google Maps, Material UI*)
- **Run Buddy** — Pet fitness app for scheduling sessions with trainers, tracking activity, managing pet profiles, and processing payments. (*React Native, Ruby on Rails, Scheduling, Chat, Stripe*)
- **Go Boon** — Referral management system handling personal and corporate profiles, matching candidates to job postings aggregated from multiple platforms. (*Angular, React, React Native, Ruby on Rails*)

EDUCATION

BS, Software Engineering

2013 – 2018

University of the Punjab (PUCIT)
